# Part A: Pupil premium strategy plan

## Statement of intent

Our intention is that all pupils, irrespective of their background or the challenges they face, make good progress and achieve high attainment across all subject areas. The focus of our pupil premium strategy is to support disadvantaged pupils to achieve that goal, including progress for those who are already high attainers.

We will consider the challenges faced by vulnerable pupils, such as those who have a social worker and young carers. The activity we have outlined in this statement is also intended to support their needs, regardless of whether they are disadvantaged or not.

High-quality teaching is at the heart of our approach, with a focus on areas in which disadvantaged pupils require the most support. This is proven to have the greatest impact on closing the disadvantage attainment gap and at the same time will benefit the non-disadvantaged pupils in our school. Implicit in the intended outcomes detailed below, is the intention that non-disadvantaged pupils' attainment will be sustained and improved alongside progress for their disadvantaged peers.

Our strategy will continue to consider where additional support is required for pupils whose education and wellbeing were impacted by the COVID-19 pandemic, notably through tutoring for pupils whose education has been worst affected.

Our approach will be responsive to common challenges and individual needs, rooted in robust diagnostic assessment, not assumptions about the impact of disadvantage. The approaches we have adopted complement each other to help pupils excel. To ensure they are effective we will:

- ensure disadvantaged pupils are challenged in the work that they're set
- act early to intervene at the point need is identified
- adopt a whole school approach in which all staff take responsibility for disadvantaged pupils' outcomes and raise expectations of what they can achieve

## Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	<b>Emotional resilience and emotional regulation</b> of pupils eligible for pupil premium is low compared to their peers. This can affect their ability to

	concentrate on academic activities, especially when working with others or when tasks are challenging.
2	A high percentage of pupils arriving at school are unable to access their learning due to their <b>emotional needs and home life issues</b> , including not having had breakfast.
3	A high proportion of pupils who are eligible for pupil premium do not enter early years at age related-expectations; <b>communication and language</b> is poor. This means they need to make more progress than their peers to catch up.
4	Low <b>attendance</b> rates for some pupil premium children impacts on their learning. This means they are constantly having to catch up to their peers.
5	Less engagement in supporting children with their <b>reading</b> means that staff have to ensure there are opportunities in school to support reading and develop a love of reading.
6	Due to low starting points in <b>verbal communication and language</b> , some disadvantaged pupils struggle to meet the expected standard at the end of the year. This slows their progress in all curriculum areas that demand effective reading strategies. <b>(Oracy)</b>
7	Level of deprivation means that many of our pupils have limited life <b>experiences</b> to draw upon to enrich their learning and understanding.
8	Less engagement in online learning by some pupils has resulted in wide- ranging gaps in <b>basic skills in both Maths and English</b> therefore making it difficult for them to access their learning effectively.

## Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
Improve emotional resilience and emotional regulation for all pupils through use of TA support and focused interventions	Intervention and lesson observations will demonstrate pupils' positive attitudes to learning and good behaviours
Children are effectively supported through high quality intervention and care from teachers and assistants who are following advice from external agencies in order access their learning effectively	Fewer children are disengaged in lessons and reluctant to begin their day
Pupils eligible for Pupil Premium in EYFS make rapid progress in all areas to meet national expectations	A higher proportion of Pupil Premium children meet a Good Level of Development than in 2025
Improve the overall attendance of PP children and reduce the number of persistent absentees across all key stages	There are increased attendance rates for Pupil Premium children

	Percentage of persistent absentees is at least in line with National Average
Increase engagement with parents to support the development of reading at home to support the bottom 20% of readers across school	By the end of the academic year, attainment in reading for all pupils improves across the whole school compared to standardised assessment in summer 2025
End of year assessments confirm that increased proportions of disadvantaged pupils meet the standard	Percentage of PP pupil meeting the expected standard improves from 2025
Provide children with a wide range of enrichment activities to ensure they receive a variety of stimulus to enrich their learning	Pupils are able to build on experiences and enrichment to engage in their learning and improve the quality and standard of their work in all areas of the curriculum Improved participation at wide range of enrichment clubs
Provide a personalised intervention programme for all children with focused additional intervention sessions for some pupils	By the end of the year, gaps in basic skills knowledge in English and Maths will be diminished and this will be evidenced in the classwork and assessments completed by the children

## Activity in this academic year

This details how we intend to spend our pupil premium funding **this academic year** to address the challenges listed above.

## Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £36,000

Activity	Evidence that supports this approach	Challenge number(s) addressed
<i>EWEL CPD for Teachers and Teaching Assistants</i>	promoting effective professional development (PD) plays a crucial role in improving classroom practice and pupil outcomes <a href="https://educationendowmentfoundation.org.uk/education-evidence/guidance-reports/effective-professional-development">https://educationendowmentfoundation.org.uk/education-evidence/guidance-reports/effective-professional-development</a>	1 and 3

## Part B: Review of the previous academic year

### Outcomes for disadvantaged pupils

In Y6 2024 end of year published data, 57% of PPG children Age Related Expectations in Reading.

In Y6 2024 end of year published data, 29% of PPG children were working at Greater Depth Standard in Reading.

In Y6 2024 end of year published data, 71% of PPG children ARE in Writing.

In Y6 2024 end of year published data, 14% of PPG children were working at Greater Depth Standard in Writing.

In Y6 2024 end of year published data, 86% of PPG children ARE in Maths.

In Y6 2024 end of year published data, 14% of PPG children were working at Greater Depth Standard in Maths.

43 children attend breakfast club daily. Over 50% of these children attract the PPG funding.

Over 60% of our children who attend enrichment clubs attract the PPG funding.

**Ofsted reported in February 2024 that:**

***Pupils have wide and varied learning opportunities beyond the academic curriculum. The school has developed an engaging range of clubs. This includes photography, languages and sport. Pupils appreciate this offer. The vast majority of pupils take part in extra-curricular activity regularly.***

***Pupils and staff are positive about the school's restorative behaviour system. Strong relationships are evident throughout the school.***

Zones of regulation is embedded in all classes in structured and unstructured times of the day.

12 children have accessed EWEL support.

Accelerated Reader produces good results and children are motivated by competing against themselves, and others. (see data) Further resources are required to maintain this high standard.

ELS continues to have great phonic outcomes.

Makaton training took place for 12 members of staff, to support those children who communicate in different ways.

Parents/carers are involved at least once each term through 'stay and play' sessions, consultations, and EWEL coffee mornings.

Attendance continues to be prioritised. Rewards are given and successes shared.
